# Product map: what Crypto Single Password Encryptor is for

## WHAT IT IS

crypto-vault is a simple password storage and management tool focused on providing basic cryptographic operations. It can help you securely store sensitive information such as pas.

## WHAT GOES IN

The files at the top of the tree: main.py, README.md, LICENSE.

## WHAT COMES OUT

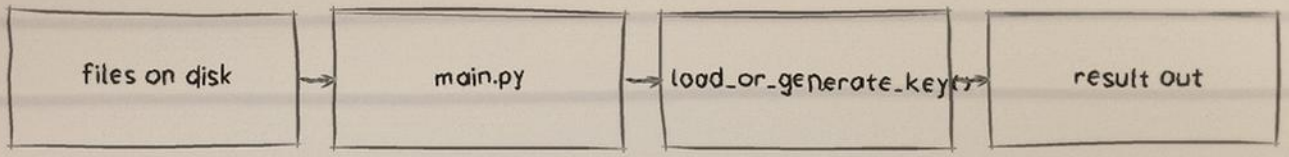

What the top files produce when they run or get read. Nothing else is promised.

## WHERE IT STOPS

No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.
